Big issues require incredible partnerships.

The Community Foundation for Southwest Washington lives at the intersection of community and philanthropy. From this vantage point, we are able to connect with donors, nonprofits, businesses and civic leaders to solve the most pressing social and economic challenges facing the residents of Clark, Cowlitz and Skamania Counties.

This work involves listening closely and learning constantly. It also requires making the work interesting, which is where our signature events come into play. We believe that making positive change should be accessible and exciting, and that's the environment our events strive to create.

Your support helps us accomplish this goal by creating memorable philanthropic experiences that engage a diverse cross-section of southwest Washington residents. Linking your brand to this vital work shows that your company takes a holistic and thoughtful approach to giving back. It translates into more visibility and strong connections to efforts that are empowering residents to get involved in creating a greater southwest Washington for everyone.

Bringing people together for a brighter future.

One of the Community Foundation's primary objectives is to inform philanthropists about the issues that matter most to our community's well being. solutions to the pressing needs we face as a region. It will also provide brand recognition at each event and the opportunity to invite your own constituents to each gathering. Your organization will also be aptly mentioned in related press releases and on social media.

When we say partnership, we aim to find shared value.

The Community Foundation customizes charitable tools to meet the philanthropic goals of donors, so we understand the value of working together for shared outcomes. We see sponsorships the same way.

Additional opportunities are available depending on our event needs in a given year. For example, your organization might be able to sponsor interactive program elements or social media displays at our events. Maybe you'd like to combine benefits from two or more events. Whatever you are considering, we're ready to hear your ideas.
